

A

APG

associated (petroleum) gas, a mixture of various gaseous hydrocarbons that are dissolved in oil and released during its extraction

ASSETS, ENTERPRISES

subsidiaries and affiliates of Gazprom Neft PJSC in the context of the Report

ASP

a method for increasing oil recovery based on the idea of injecting a three-component mixture (anionic surfactant, soda and polymer) into the reservoir

B

BAZHENOV FORMATION, BAZHENOV RESERVES

a formation of rocks found in Western Siberia

C

CNG

compressed natural gas

CORPORATE COMMUNICATIONS

interaction, including through the exchange of information, between the Company and its stakeholders

CO²

carbon dioxide

CSR

corporate social responsibility

D

DOWNSTREAM

E

EBITDA

earnings before interest, taxes, depreciation, and amortization

EMS

energy management system

FEI

fuel and energy industry

G

GRI (Global Reporting Initiative)

an international organization whose main goal is to develop and implement an authoritative and credible reporting system in the area of sustainability that can be used by organizations regardless of their size, type of activity, or location

GRI (guidelines)

internationally recognized methods for sustainability reporting developed by the Global Reporting Initiative (GRI)

GRI Standards

the new version of the internationally recognized methods for sustainability reporting developed by the Global Reporting Initiative (GRI)

H

HEAD OFFICE / CORPORATE CENTRE

the management company – Gazprom Neft PJSC

I

IAS

internal audit system

IFRS

International Financial Reporting Standards

IRMS

integrated risk management system (risk management is a continuous streamlined process that involves identifying, assessing, monitoring, and responding to risks at all levels of the Company)

IS

industrial safety (industrial, occupational, and environmental safety and civil defence)

ISO 26000

the international standard of social responsibility for organizations of all sectors and types adopted in 2010. ISO 26000 is the standard guideline that defines the general concepts and principles for organizing activities

K

KIMS

knowledge and innovation management system

KMAD-Yugra

Khanty-Mansi Autonomous District-Yugra

L

LPG

liquefied petroleum gas

LTIFR (Lost Time Injury Frequency Rate)

the number of cases involving the loss of work time versus the total amount of time worked and standardised per 1 million man-hours worked

M

MOTOR FUEL CLASS

the environmental standard established by the Technical Regulation of the Russian Federation “On requirements for automobile and aviation petrol, diesel and marine fuel, jet fuel, and fuel oil” that is similar to European standards. For example, Class 5 of the Technical Regulation complies with the Euro-5 standard

MSHF

multi-stage hydraulic fracturing

N

‘NATIVE TOWNS’

Gazprom Neft’s social investment programme that aims to solve important problems and meet socioeconomic development challenges faced by the regions where the Company operates, including by involving representatives of the local community in the implementation of projects. The key focuses of the programme are the development of the urban environment (construction of housing and the improvement of urban areas), the creation and development of infrastructure for children and grassroots sports, support for sports institutions and sporting events, the support and development of education, the preservation and development of the cultural potential of the regions, and cooperation with indigenous minorities.

NON-FINANCIAL REPORTING

see ‘Reporting on sustainable development’

NO_x

nitrogen oxide

NPO

non-profit organization

O

O. E.

oil equivalent, a conventional type of fuel measurement

OILFIELD SERVICE

oil and gas field service: drilling of wells, installation of drilling rigs, construction of well pads, repair of wells, repair of drilling equipment, etc.

OIL SLUDGE

multi-component physicochemical systems (mixtures) consisting of water, petroleum products, and mineral additives (clay, metal oxides, sand, etc.)

OIRFP

offshore ice-resistant fixed platform

OMS

operations management system

P

PRMS-SPE

(Petroleum Resources Management System and Society of Petroleum Engineers) – the international standard for the assessment and management of subsoil hydrocarbon reserves that takes into account the probability of the existence of hydrocarbon resources and the economic efficiency of their extraction

2P (PROVEN AND PROBABLE)

proven and probable hydrocarbon reserves

R

RAS

Russian Accounting Standards

R&D

research and development

RENEWABLE ENERGY SOURCES

types of energy that are continuously renewed in the Earth's biosphere (energy from the sun, wind, tides, waves, etc.)

RUIE

S

SLUDGE PIT

storage place for drilling waste

SOCIAL INITIATIVE GRANT COMPETITION

a social investment tool used by the Company to select on a competitive basis and provide financial support for projects that aim to solve key social problems in the areas where the Company operates. It is utilized as part of the 'Native Towns' social investments programme

SO₂

sulphur oxide

STAKEHOLDERS

all individuals and legal entities that are interested in and affect or are affected by the Company's activities

SUSTAINABILITY

considering economic, environmental, and social impacts that cross a threshold in affecting the ability to meet the needs of the present without compromising the needs of future generations (this definition is provided by the report Our Common Future, which was issued by the World Commission on Environment and Development at the United Nations. Quoted from: Sustainability Reporting Guidelines. Version 3.0., GRI, 2006).

SUSTAINABILITY REPORTING (NON-FINANCIAL REPORTING)

a set of systems and processes for collecting, consolidating, analyzing, and reporting information that demonstrates a balance between the financial, operational, social, and environmental aspects of the Company's operations. It also includes the principles and mechanisms for considering the interests of a wide range of stakeholders, and managing interactions with them in order to solve problems that are important to the Company and society

T

TSF

tonne of standard fuel

TP (Total Proved)

proven hydrocarbon reserves

U

UN SDR

Sustainable Development Goals adopted by UN member nations in 2015

UPSTREAM

Exploration and Production Unit

V

VIOC

Vertically integrated oil company

VOC

volatile organic compounds

Y

YNAD

Yamalo-Nenets Autonomous District
